#### Information About Pricing

Plan Name	Monthly Included Value for Calls & SMS	Monthly Included Data	Monthly Charge	Total Minimum Price (incl \$10 SIM charge)	Excess Data
\$15 Plan	\$550	1GB	\$15	\$25	\$10/GB (or part thereof)

Total Minimum Price is calculated as \$10 SIM charge (including delivery) plus one month of Westnet Mobile Voice plan.

You will need to pay the next month's monthly charge in advance. If you use more than the monthly inclusion of calls, texts or data, or you use other services that are not part of the monthly inclusion you will incur charges above the monthly charge.

- Westnet Mobile features a number of spend management tools, including usage notifications and sub-limits for various transaction types.
- Westnet reserves the right to restrict services once monthly billings are greater than \$200.

Please be aware that billing information is not received instantly by Westnet after the usage charge has been incurred. This delay means that spend limits can be out of date by the time they are applied. You are still responsible for all charges incurred due to usage beyond the spend limit.

#### Excess Data

Any excess data usage above your monthly inclusion will automatically be charged at \$10 per GB (or part of a GB). If you exceed your monthly data inclusion by 10GB, we may continue to charge you at the same rates or restrict your data use until the next billing period.

#### Setup Fee

An Westnet Mobile SIM is required in order to use the service.

- A \$10 charge applies for a Westnet Mobile SIM (either standard, Micro, or Nano SIM); this includes delivery anywhere in Australia.
- You can either port an existing Australian mobile phone number to your Westnet Mobile service; or we can allocate you a new number.
