

CRITICAL INFORMATION SUMMARY:

Off-Net ADSL Broadband

Information About The Service

If we're unable to connect you to a Westnet On-Net plan, we can still provide you with up to ADSL2+ speeds via our Off-Net plan range. Starting at 1500k speeds, a Turbo pack can be added to any Off-Net plan for up to ADSL2+ speeds.

Requirements & Availability

ADSL requires a basic telephone service in order to function. You can use a suitable telephone service from another provider and pay the standard pricing, or you can use an Westnet Phone service (from \$29.95 per month) and receive monthly bundling benefits on your broadband.

You will require an ADSL modem to connect your service. If you don't already have one, Westnet can sell or rent you a suitable device at additional cost.

Service availability can be checked using our online coverage calculator: www.westnet.com.au/internet

Minimum Term

Off-Net ADSL plans are available on either no fixed term, or on a 24 month agreement. A 24 month agreement gives access to discounted hardware, as well as \$0 setup when you bundle with BoB2 Rental, or discounted setup of \$39.95 (saving you \$40) when you bundle with Phone.

There are a range of value-added features included with Westnet ADSL, with further detail on the website;
