

Critical Information Summary:

Naked DSL

Information About The Service

Westnet Naked DSL is a residential service that allows you to experience the benefits of ADSL2+ speeds on the Westnet Network, without the cost of line rental.

All Naked DSL plans include Netphone (VoIP) at no additional cost, offering great call rates and call inclusions depending on your plan of choice. The Critical Information Summary for Netphone can be found at westnet.com.au/about/legal/cis/cis-voip.pdf

Requirements & Availability

You will require an ADSL broadband modem to connect your service. If you don't already have one, Westnet can sell you a suitable device at additional cost. To make use of your Netphone service, you'll require a VoIP-enabled modem and handset.

Service availability can be checked using our online coverage calculator:

westnet.com.au/internet/broadband/naked-dsl/

To ensure you're always connected to the best product available, we may need to change your service, for example, when an upgraded service (like our NBN Fibre service) becomes available. If this happens, we'll inform you ahead of any changes.

Minimum Term

Naked DSL plans are available on either a no lock-in contract or a 24 month agreement which offers discounted setup and an included WiFi modem.
