Information About The Service

The NBN Fibre service is a broadband Internet service which uses the NBN Optical Fibre Access Network to deliver Internet connectivity at the Network Boundary Point at your Premises.

Requirements & Availability

The NBN Fibre service is only available within an NBN fibre service area. Unless your premises is already connected, you will need to be connected to the NBN Optical Fibre Access Network. Setup Fee

There is no set-up fee or installation charges to sign up to a standard NBN Fibre service. Any cabling that is required in your premises beyond the Network Boundary Point is your cost and responsibility.

Excess Usage

Both uploads and downloads count towards your monthly included data. There are no automatic excess usage charges on Residential NBN Fibre services – instead, traffic beyond the included data quota will be shaped to 256 kbps/256kps.

- You may purchase Data Packs at an additional cost for a data quota top up, if required.
- Information on Data Pack pricing is available at www.westnet.com.au/nbn/fibre/plans

Early Termination Charge

If you cancel your service during the initial 24 month period, there is no early termination fee on the NBN Fibre plan. Cancelling your NBN Fibre Service will also result in a cancellation of any other Westnet products you've purchased that are only available when bundled with NBN Fibre. Should those products have their own contract, you will be liable for their associated break fees.
