

# Critical Information Summary:

## Fibre Phone on NBN

### Information About The Service

Fibre Phone on the NBN combines the best features of traditional landline phone services, such as the ability to use a traditional handset, with the cost-effective call charges of Voice over IP.

#### Requirements & Availability

The Fibre Phone service is only available with an active Westnet NBN Fibre service. If your NBN Fibre service is cancelled, your Fibre Phone service will also be cancelled. Full details on the NBN Fibre service are available at [www.westnet.com.au/about/legal/cis/cis-nbn-fibre.pdf](http://www.westnet.com.au/about/legal/cis/cis-nbn-fibre.pdf)

A standard telephone handset (approved for use in Australia) is required to use Westnet Fibre Phone. The telephone handset is not provided by Westnet unless otherwise specified in your application.

Once you take up a Fibre Phone service on the NBN, you can't move back to a telephone service on the existing copper network.

#### Minimum Term

No minimum terms are applied to Westnet Fibre Phone.

## Other Information

### Call Usage Information

Customers can obtain information on their Fibre Phone usage at <https://myaccount2.westnet.com.au/>

### Fibre Phone and Power Outages

The Fibre Phone service is delivered via the NBN and has the ability to work in a power outage if a battery backup is installed with your NBN Fibre service. In order for your service to work in a power outage please be aware;

- You must have an active battery backup unit installed. (This is optional and you can elect to get this installed at no extra cost when you apply for NBN Fibre with Westnet)
- You will need a non-powered traditional telephone or telephone with a backup power supply connected to the voice port on the NBN Connection Box.
- During a power outage, the battery will provide power for a limited period of time, a fully charged battery will last between 3 and 11 hours. If the battery is not fully charged it may last for less than 3 hours.

### Incompatible Equipment

Please be aware that any existing services operating on your phone line may not work, such as back-to-base alarms, personal response systems, fax machines or EFTPOS. Please check with your device manufacturer or provider to see if the device is NBN compatible.
