

Critical Information Summary:

NBN Fixed Wireless

Information About The Service

The NBN Fixed Wireless Service is a broadband internet service which uses the NBN Fixed Wireless Customer Access Network to deliver internet connectivity at the Network Boundary Point at your premises.

Requirements & Availability

The NBN Fixed Wireless service is only available within an NBN Fixed Wireless service area. Standard installations are completed without charge to you. Non-standard installations may require you to pay additional charges.

NBN Fixed Wireless availability can be checked using the online coverage checker at:

www.westnet.com.au/internet/broadband/nbn/coverage/

You will require an NBN ready router if you want to connect multiple devices at once. The router will need to be WiFi or VoIP enabled if you want to connect wireless devices or a VoIP telephone service to your NBN Fixed Wireless connection. If you don't already have one, Westnet can sell or rent you a suitable device at an additional cost.

Minimum Term

NBN Fixed Wireless plans are available on either no fixed contract term, or on a 24 month agreement. A 24 month contract gives access to discounted hardware, as well as \$0 activation (\$79.95 on a no fixed contract term).

Included Features

There are a range of value-added features included with NBN Fixed Wireless plans, with further detail on the website.

On and off peak quota	1GB Webspace	10 email addresses	Email Protection
