

CRITICAL INFORMATION SUMMARY:

Business NBN Fibre

Information About The Service

The NBN Fibre service is a broadband Internet service which uses the NBN Optical Fibre Access Network to deliver Internet connectivity at the Network Boundary Point at your premises.

Requirements & Availability

The NBN Fibre service is only available within an NBN Fibre service area. Unless your premises is already connected to the NBN Optical Fibre Access Network, you will need to be connected to the NBN Optical Fibre Access Network. Standard installations are done without charge to you. Non-standard installations may require you to pay charges.

You will require an NBN ready router to connect to your NBN Fibre services. If you don't already have one, iiNet can sell or rent you a suitable device at an additional cost.

NBN Fibre availability can be checked using the online coverage checker at www.iinet.net.au/business/small/internet/nbn/

Minimum Term

NBN Business Fibre plans are available on a 12 or 24 month term. A 24-month agreement gives you a \$0 cost activation fee and access to discounted hardware.
