## NBN Speeds

- FTTN, FTTC & FTTB speeds to be confirmed when active. Actual speeds may vary due to many factors including type/source of content being downloaded, hardware and software configuration, the number of users simultaneously using the network and performance of interconnecting infrastructure not operated by iiNet. Devices connected by WiFi may experience slower speeds than those connected by Ethernet cable. Learn more about NBN speeds here: [iihelp.iinet.net.au/support/node/17104/](http://iihelp.iinet.net.au/support/node/17104/)
- NBN50 & NBN100 indicate the underlying NBN wholesale connection speed tier and translate to the typical speeds below:

Speed Tier	Typical Business Hours Download Speeds (9am – 5pm, Monday to Friday)	Upload speeds
Standard Plus (NBN50)	46.1Mbps	Between 1Mbps & 20Mbps
Premium (NBN100)	84.9Mbps	Between 1Mbps & 40Mbps

## Excess Usage

- Both uploads and downloads count towards your monthly included data. If you exceed your included data for the month, you are not charged for excess usage. Instead, traffic beyond the included data will be slowed (shaped) to 8/1Mbps for NBN50 300. You may purchase additional data if required.
