

Critical Information Summary: Fibre To The Home (FTTH)

Information About The Service

The Fibre to the Home (FTTH) service is a broadband internet service which uses the Optical Fibre Access Network to deliver internet connectivity at the Network Boundary Point at your premises.

With every FTTH plan we also include Netphone at no additional cost. Netphone is our Voice over IP (VoIP) service which includes your local and standard national calls. Typically you can transfer your existing landline number to Netphone. Further information on Netphone is available at: www.iinet.net.au/about/legal/cis/cis-voip.pdf

Required Services & Availability

The FTTH service is only available within an FTTH ready service area. iiNet charge a once off setup fee on all FTTH installations, plus additional installation charges may be applicable directly from your Optical Fibre Access Network wholesale provider.

You will require a Fibre-compatible router if you want to connect multiple devices at once. The router will need to be WiFi or VoIP enabled if you want to connect wireless devices or a VoIP telephone service to your FTTH connection. On a 24 month contract iiNet can provide you with a WiFi modem at no additional cost.

Minimum Term

FTTH plans are available on either no lock-in contract, or on a 24 month contract. A 24 month contract gives access to a \$0 WiFi modem, as well as \$79 setup (\$159 on no lock-in contract).

Included Features

There are a range of value-added features included with FTTH plans, with further detail on the website.

Local and standard national calls included with Netphone	1GB Webspace	10 email addresses	\$0 WiFi modem on a 24 month contract

Setup Fee

The below setup fee is applicable when signing up to an FTTH plan.

Service	Details	Charge (No lock-in contract)	Charge (24 month contract)	Charge (24 month contract with Budii® Rental)
FTTH	Setup Fee	\$159.00	\$79.00	\$0

Any cabling that is required in your premises beyond the Network Boundary point is your responsibility

Excess usage

Both uploads and downloads count towards your monthly included data. There are no automatic excess usage charges on FTTH instead traffic beyond the included data quota will be slowed to 256 kbps/256kbps.

- You may purchase data packs at an additional cost for a data quota top up, if required.
- Information on data pack pricing is available at: iihelp.iinet.net.au/support/data_packs_information

Cancellation Fees

- Applies to 24 month contract term only - the maximum applicable break fee is \$80 plus if you purchased hardware you will be charged back the difference between the standard cost of the hardware and the discounted hardware purchase cost. These fees cover the costs reasonably incurred by iiNet when the contract commenced.
- Cancelling your FTTH service will also result in a cancellation of any other iiNet products you've purchased that are only available when bundled with FTTH. Should those products have their own contract, you will be liable for their associated break fees.
