

Critical Information Summary:

Fibre to the Home (FTTH)

About the Service

The Fibre to the Home (FTTH) service is a broadband internet service which uses the Optical Fibre Access Network to deliver internet connectivity at the Network Boundary Point at your premises.

With every FTTH plan, we also include Netphone at no additional cost. Netphone is our Voice over IP (VoIP) service. Typically, you can transfer your existing landline number to Netphone.

- Critical Information Summary for Netphone can be found here www.iinet.net.au/about/legal/cis/cis-voip.pdf

Included Features

There are a range of value-added features included with FTTH plans, with further details here:

www.iinet.net.au/internet-products/fibre/ftth

- Limitless Data
- Netphone offered.
- 24/7 customer service

Minimum Term

FTTH plans are available on a no lock-in contract with \$79 activation fee.

Early Cancellation Fees

- There are no cancellation fees on no lock-in contracts.
- Cancelling your FTTH service will also result in a cancellation of any other iiNet products you've purchased that are only available when bundled with FTTH. Should those products have their own contract, you will be liable for their associated break fees.

Hardware Non-Return Fees

- If you withdraw an order from us (before your service is activated) and receive the modem we supplied to you, you will need to pay for the modem unless it is returned to us in good working order within 21 days of withdrawing your order.
- If you cancel your service after it has been activated, any applicable modem payment fees will apply in accordance with the terms and conditions of your chosen service.

Plans

Plan Name	Speed Tier	Monthly Included Data	Netphone Call Inclusions	Monthly Charge	Total Min. Charge (no lock-in)
Fibre12 Limitless PAYG	Fibre12	Unlimited	Pay as you go	\$74.99	\$153.99

Fibre100 Limitless PAYG	Fibre100	Unlimited	Pay as you go	\$99.99	\$178.99

- Total Minimum Charge on no lock-in contract is one month of plan rental plus the \$79 activation fee.

Availability

The FTTH service is only available within an FTTH ready service area. Use our coverage checker www.iinet.net.au/home to check FTTH availability at your address.

Required Equipment

- You will require a Fibre-compatible router if you want to connect multiple devices at once.
- The router will need to be WiFi or VoIP enabled if you want to connect wireless devices or a VoIP telephone service to your FTTH connection.
 - If you don't already have one, you can purchase a modem from iiNet for \$114.95 (\$0 delivery fee applies).
- a) Installation of the Optical Network Terminating Unit (if not present) or cabling that is required in your premises beyond the network boundary point is your cost and responsibility.

Excess Usage

Both uploads and downloads count towards your monthly included data. FTTH plans include unlimited data so there is no excess usage charges or shaping (slowing) of speeds.

FTTH Speeds

- Actual speeds may vary due to many factors including type/source of content being downloaded, hardware and software configuration, the number of users simultaneously using the network and performance of interconnecting infrastructure not operated by iiNet. Devices connected by WiFi may experience slower speeds than those connected by Ethernet cable. Learn more about FTTH speeds here: www.iinet.net.au/internet-products/fibre/ftth

Speed Tier	Estimated Typical Evening Download Speeds (7pm – 11pm)*	Typical Evening Upload Speeds (7pm – 11pm)*
Basic (Fibre12)	9.60Mbps	0.8Mbps
Standard (Fibre25)	20.0Mbps	4.25Mbps
Standard Plus (Fibre50)	40.0Mbps	17.0Mbps
Premium (Fibre100)	80.0Mbps	34.0Mbps

*Estimated typical evening download speed is measured between 7pm–11pm. The speed stated here is currently based on an estimate. iiNet will revise the typical evening download speed once it has collected enough data on the speed performance for this plan. Typical evening upload speed is estimated by reference to the maximum upload speed for the plan.

Call Packs

Great value call packs are available at an additional monthly fee on all FTTH plans. Acceptable Use Policy applies.
