

## Critical Information Summary:

# IINET MOBILE Mega Bundle PLAN

## Information About The Service

### Service Description

The iinet Mobile **Mega Bundle Plan** is a \$29.99 per month prepaid, SIM only, mobile service with the specified included value and 120GB of included data, which is the standard 40GB plus a bonus 80GB for bundling with one of our broadband plans. This plan is only available if you have an active iinet broadband service. If you cancel or move your broadband service with us to another provider in the future or the service becomes inactive for any other reason, your included data will revert to 40GB at the beginning of the next billing period.

The underlying network is the Vodafone mobile digital network (3G/4G).

The service includes the following monthly Included Value for use within Australia:

- 120GB Included Data (standard 40GB plus bonus 80GB)
- Unlimited Calls to Standard Australian Mobile and Landline Numbers (includes 13/1300), SMS & MMS to Australian Numbers.

Recurring charges are payable monthly in advance. You can make additional prepayment if you wish to make any excluded calls or usage that will incur excess charges. Payment options are Direct Debit or Credit Card.

### Bundling Arrangements & Mandatory Goods

Supply of the Service requires bundling with an active iinet broadband plan. An iinet broadband plan includes any iinet DSL, NBN, Fibre to the Home, Home Wireless, Ultra Cable, FTTB or VDSL2 Service. It is not a requirement of iinet Mobile Services that customers acquire handsets or other equipment from iinet. However, you must have a compatible mobile handset to be able to use this service.

### Excluded Usage

The **Mega Bundle Plan** excludes Excess Data, Calls to International Numbers, SMS and MMS to International numbers, Calls to Satellite phones, Third Party content, Video Calls to Standard Australian and International numbers, International Roaming, Directory Assistance and other Enhanced Services. Calls and SMS to 19 Numbers, Diversion to International numbers and Premium SMS/MMS are not supported. You will

need to prepay additional funds to your prepaid balance if you wish to make any excluded calls or usage that will incur excess charges.

**Excess Data:** The **Mega Bundle Plan** has a certain amount of Included Data each monthly billing cycle. If at any time in a billing cycle you use more than the amount of Included Data, we will charge \$10 out of your prepaid balance to increase the amount of Included Data available in that particular billing cycle by 2GB. If there are insufficient funds in your prepaid balance, your service will become inactive until your prepaid balance is topped up.

See Call Rates and Other Usages Rates below for a pricing summary of excluded key usage types. For full rates and a complete understanding of Inclusions & Exclusions, visit the website [www.iinet.net.au/mobile-callrates](http://www.iinet.net.au/mobile-callrates).

### Minimum Term

iinet Mobile Services are supplied on a rolling month to month basis. Customers are permitted to terminate the acquisition of the Service at any time, but any unused balance of any additional payment for usage that is not within the included value for your plan will not be refunded to you but will be retained by iinet Limited.

### Coverage

Customers can only obtain 4G speeds when they use a 4G-ready phone (LTE 1800/850 MHz) in 4G coverage areas as per the detailed map listed at [www.iinet.net.au/mobile-coverage](http://www.iinet.net.au/mobile-coverage). When customers are not within a 4G coverage area or their mobile handset is not 4G compatible, the mobile service will automatically switch over to 3G and speeds will be much less than that of 4G. When inside 4G coverage areas actual speeds vary due to factors such as location, distance from the base station, local terrain, user numbers, hardware & software configuration and download source/upload destination.

## Other Information

### Usage Information

You can monitor your iiNet Mobile usage by logging into Toolbox online at [toolbox.iinet.net.au](http://toolbox.iinet.net.au).

### International Roaming

While roaming, calls, SMS, MMS and data are charged at higher rates than they are used in Australia.

Charges for using International Roaming are not part of your plan's Monthly Included Value. We highly recommend you disable Mobile Data before going overseas to ensure that you do not incur unexpected and high data usage fees whilst roaming.

Please be aware there is often a lag of up to 30 days before the roaming usage is shown in Toolbox due to the delay in receiving your roaming usage records from overseas network carriers.

### Customer Support

Email: [support@iinet.net.au](mailto:support@iinet.net.au)  
 Phone: 13 22 58

### Complaints Handling

If you have a dispute with iiNet and wish to take the matter further, please follow the escalation process outlined at [help.iinet.net.au/complaint-handling-policy](http://help.iinet.net.au/complaint-handling-policy)

### Further Options

If you are not satisfied with our handling of your complaint and you have escalated this within iiNet, you may seek complaint mediation or further assistance from the Telecommunications Industry Ombudsman (telephone 1800 062 058).

This is a summary only – the full terms and conditions for this service are available at [www.iinet.net.au/mobile](http://www.iinet.net.au/mobile).
