

# Critical Information Summary

## IINET NBN

Plan	NBN12 Liimitless	NBN25 Liimitless	NBN50 Liimitless	NBN100 Liimitless*	NBN Superfast Liimitless	NBN Ultrafast Liimitless
Monthly Charge	\$74.99	\$76.99	\$84.99	\$94.99	\$99.99	\$109.99
Typical Evening Download Speed (7pm-11pm)	12Mbps	25Mbps	50Mbps	100Mbps	250Mbps	800Mbps
Typical Evening Upload Speed (7pm-11pm)	0.8Mbps	4Mbps	17Mbps	17Mbps	21Mbps	40Mbps
Monthly Included Data	Unlimited					
NBN Phone Call Inclusions	Pay as you go					
Total Min. Charge (no lock-in)	\$276.99	\$278.99	\$286.99	\$296.99	\$301.99	\$311.99

\*Our NBN100 plan is configured on the NBN 100/20 wholesale tier which provides upload speeds between 1Mbps and 20Mbps. By invitation only, some existing customers may be eligible to configure their NBN100 plan on the NBN100/40 wholesale tier which provides off peak upload speeds between 1Mbps and 40Mbps. The applicable monthly charge for this is \$109.99 (this is only offered on a Month-to-Month basis), and the total minimum charge (no lock-in) is \$109.99.

Total Minimum Charge on a no lock-in contract if you purchase a modem is the \$192 modem fee, \$10 modem delivery fee plus on month of plan fees. If you stay connected for 24 months, the modem costs \$0. If you leave prior to 24 months and do not return the modem within 21 days, then you will be charged a modem non-return fee calculated as \$8 multiplied by months remaining in the first 24 months. For example, if you leave after 18 months, you would pay \$8 x 6 (the number of remaining months), a total of \$48.

Total Minimum Charge on a no lock-in contract if you BYO modem is one month of plan rental.

## Information About The Service

### Service Description

The NBN service is a broadband internet service which uses the NBN Fibre (FTTP, FTTB, FTTN, FTTC or HFC) technology to deliver internet connectivity to the Network Boundary Point at your premises. There are a range of value-added features included with NBN plans, with further details [here](#).

- NBN Phone offered
- Unlimited data on selected plans
- No excess quota usage charges
- 24/7 customer service

### Minimum Term

NBN plans are supplied on a no lock-in contract.

### Early Cancellation Fees

There are no cancellation fees for no lock-in contracts, however, you may be required to pay out the cost of your modem (refer to Total Minimum Charge under the Plans table above).

Cancelling the NBN service will also cancel any other iiNet products that are only available with NBN. Should those products have their own contract, you are liable for their associated break fees.

### Hardware Non-Return Fees

If you cancel your plan within 24 months of connecting, or if your order is withdrawn after receiving the modem, we supplied to you, then you will need to return the modem to us in good working order within 21 days of cancellation/withdrawal. If you do not return the modem within 21 days, then you will be charged a modem non-return fee. This modem non-return fee covers the pro-rated cost of the iiNet Broadband Modem. The non-return fee is calculated as \$8 multiplied by months remaining in the first 24 months. For example, if you leave after 18 months you would pay \$8 x 6 (the number of remaining months), a total of \$48.

### Availability

This service is available in areas serviced by the NBN (FTTP, FTTB, FTTN, FTTC or HFC). Use our [coverage checker](#) to check NBN availability at your address.

Superfast/Ultrafast plans are only available in NBN FTTP & select NBN HFC areas.

Non-standard installations may incur additional fees. An nbn® \$300 New Development Charge applies if your premises is identified by nbn® as being within the site boundary of a new development.

### Equipment Required

An NBN compatible modem that is WiFi enabled to connect with wireless devices. For more information, see [here](#).

Superfast/Ultrafast plans require a compatible high-speed modem, see [here](#).

To be provided a working NBN Phone service, you need a standard phone handset (approved for use in Australia) and you must purchase an iiNet modem. If you are an existing customer, you may be able to use your existing modem – we will advise you if your modem is compatible during selection of your NBN plan.

Any cabling that is required in your premises beyond the Network Boundary Point is your responsibility. Standard installations are completed without charge to you. Non-standard, additional or subsequent installations may require you to pay additional charges.

### NBN Speeds

Typical Evening Download Speeds are subject to change and are measured 7pm-11pm. Typical Evening Upload Speeds are estimated by reference to the maximum upload speed. Speeds are not guaranteed and may vary.

The NBN speed tier is the maximum possible download speed that is available outside the busy period of 7pm-11pm.

For FTTN/B/C customers, we will inform you of your maximum attainable line speed once it's available from NBN after activation. If you are on a higher speed NBN plan that your line can't support, we'll provide you with options, including to downgrade or cancel your service for no extra charge and with a refund if cancelling or a credit to your account if downgrading.

In some circumstances, we may automatically change your plan to a lower speed tier that's more suitable to you, and provide you with a proportionate credit to your account as well (however, we will let you know about this in advance).

Actual speeds may vary due to many factors including type/source of content being downloaded, hardware and software configuration, the number of users simultaneously using the network and performance of interconnecting infrastructure not operated by iiNet. Devices connected by WiFi may experience slower speeds than those connected by Ethernet cable. More info [here](#).

## NBN Phone & Call Packs

We offer our NBN phone service at no additional cost to customers that purchase a modem with their plan and existing customers who reuse their compatible iiNet supplied modem.

See full list of NBN Phone call rates [here](#).

Critical Information Summary for NBN Phone [here](#).

Great value call packs (as below) are available at an additional monthly fee. Acceptable Use Policy applies.

Call Packs	Call Pack Inclusions	Monthly Charge
<b>Basic</b>	<ul style="list-style-type: none"> <li>Unlimited local calls (excluding 13/1300 numbers and calls to Directory Assistance (1223)), unlimited standard national calls and unlimited national calls to mobiles</li> </ul>	\$5
<b>Value</b>	<ul style="list-style-type: none"> <li>Unlimited local calls (excluding 13/1300 numbers and calls to Directory Assistance (1223)), unlimited standard national calls and unlimited national calls to mobiles</li> <li>100 minutes each month to call any landline or mobile in any destination listed in the Big Talk Call Pack in our <a href="#">International Call rates</a> page (excluding satellite phones)</li> </ul>	\$10
<b>Premium</b>	<ul style="list-style-type: none"> <li>Unlimited local calls (excluding 13/1300 numbers and calls to Directory Assistance (1223)), unlimited standard national calls and unlimited national calls to mobiles</li> <li>Unlimited international calls to any landline or mobile to the select <a href="#">23 destinations</a> (excluding satellite phones)</li> </ul>	\$15

## NBN Access Technologies

Our NBN service can be delivered over the NBN Network to your premises via Fibre to the Premises (FTTP) as Ethernet, Hybrid Fibre- Coaxial (HFC) as Ethernet, Fibre to the Curb (FTTC) as Ethernet, Fibre to the Basement (FTTB) as VDSL2 or Fibre to the Node (FTTN) as VDSL2. More information on NBN access technologies is available [here](#).

## Battery Backup and Power Outages

This service does not include a battery backup. This means you will not be able to access any internet and telephony services provided by NBN during a power outage. This includes making calls to emergency service numbers like 000. Please ensure you have alternate ways of making calls, such as a mobile phone.
