* * Social media includes Facebook, MySpace, Twitter, LinkedIn, Ebay and Foursquare. This inclusion applies to specific URLs only, and not when accessed via tethering.

** Total Minimum Price includes \$20 SIM charge (including delivery), plus one month of iiNet Mobile Voice plan rental.

Maximum Monthly Charges

If you use more than the monthly inclusion of calls, texts or data - and/or you use other services that are not part of the monthly inclusion - then you will incur charges above the minimum monthly charge.

- iiNet Mobile features a number of spend management tools, including usage notifications and sub-limits for various transaction types.
- iiNet reserves the right to restrict services once monthly billings are greater than \$200.

Please be aware that billing information is not received instantly by iiNet, and in some cases can be delayed by several days after the usage charge has been incurred. This means that spend limits can hence be out of date by the time they are applied.

You are still responsible for all charges incurred due to usage beyond the spend limit.

Setup Fee

A iiNet Mobile SIM is required in order to use the service.

- A \$20 charge applies for an iiNet Mobile SIM (either standard, Micro, or Nano Sim); this includes delivery anywhere in Australia.

Further information: www.iinet.net.au/phone/mobile-phones/sim-only/

- You can either port an existing Australian mobile phone number to your iiNet Mobile service; or we can allocate you a new number.

Early Termination Charge

The iiNet Mobile service has no early cancellation charges. Your only commitment is the 'one month rolling contract' that is inherent in paying one month's rental in advance on the service.

Standardised Cost Information

The following table indicates the rate at which your monthly included value will be consumed and the cost of additional usage outside of the monthly included value:

2 Minute Standard National Mobile Call	A standard national mobile call incurs a flagfall of \$0.35 and a per minute rate of \$0.90. Hence a 2 minute national mobile call will cost \$2.15.
Standard National Mobile SMS	A standard national mobile SMS will cost \$0.25.
One Megabyte of Data within Australia	Using one Megabyte of data within Australia will cost \$0.07475 on the \$14.95 plan; \$0.01933 on the \$29 plan; \$0.01633 on the \$49 plan; and \$0.01380 on the \$69 plan. Any excess data usage above your monthly allowance will be charged at \$0.20 per MB

If you restricted your use solely to Standard National Mobile Calls each of 2 minutes in duration, you could make the following number of calls per month within the monthly included value of your plan:

Plan Name	Number of standard national mobile calls each of 2 minutes duration
iiNet Mobile 10	76
iiNet Mobile 20	209
iiNet Mobile 40	348
iiNet Mobile 60	All Included

International Roaming Costs

Using your mobile phone overseas attracts significantly higher rates than standard iiNet Mobile charges:

- All call and data charges while roaming are excluded from your monthly included value amounts.
- Using Social Media while overseas is not included in your plan - this includes photo uploads and downloads. Charges apply to all data sent & received.
- Charges also apply for both making and receiving calls when roaming overseas.

While you are roaming overseas, usage details may take days or weeks to reach iiNet, meaning you may not receive timely usage warnings. Regardless, you are responsible for all charges made on your service when overseas.
