

# Critical Information Summary:

## NBN Fibre

### Information About The Service

The NBN Fibre service is a broadband internet service which uses the NBN Optical Fibre Access Network to deliver internet connectivity at the Network Boundary Point at your premises.

#### Required Services & Availability

The NBN Fibre service is only available within an NBN Fibre ready service area. Standard installations are completed without charge to you. Non-standard installations may require you to pay additional charges.

NBN Fibre availability can be checked using the online coverage checker at:

[www.iinet.net.au/internet/broadband/nbn/coverage/](http://www.iinet.net.au/internet/broadband/nbn/coverage/)

You will require an NBN ready router if you want to connect multiple devices at once. The router will need to be WiFi or VoIP enabled if you want to connect wireless devices or a VoIP telephone service to your NBN Fibre connection. If you don't already have one, iinet can sell or rent you a suitable device at an additional cost.

#### Minimum Term

NBN Fibre plans are available on either no fixed contract term, or on a 24 month agreement. A 24 month contract gives access to discounted hardware, as well as \$0 activation (\$79.95 on a no fixed contract term).

#### Included Features

There are a range of value-added features included with NBN Fibre plans, with further detail on the website.

### Setup Fee

The below activation fee is applicable when signing up to an NBN Fibre plan.

| Service   | Details        | Charge<br>(No Fixed Term) | Charge<br>(24 Month Contract) |
|-----------|----------------|---------------------------|-------------------------------|
| NBN Fibre | Activation Fee | \$79.95                   | \$0                           |

*Any cabling that is required in your premises beyond the Network Boundary point is your responsibility*

### Excess usage

Both uploads and downloads count towards your monthly included data. There are no automatic excess usage charges on NBN Fibre instead traffic beyond the included data quota will be slowed to 256 kbps/256kbps.

- You may purchase data packs at an additional cost for a data quota top up, if required.
- Information on data pack pricing is available at: [iihelp.iinet.net.au/support/data\\_packs\\_information](https://iihelp.iinet.net.au/support/data_packs_information)

### Cancellation Fee

- Applies to 24 month contract term only - the maximum applicable break fee is \$200 within the first 6 months. The below NBN Fibre break fees apply thereafter. These fees cover the costs reasonably incurred by iiNet when the contract commenced.
- Cancelling your NBN Fibre service will also result in a cancellation of any other iiNet products you've purchased that are only available when bundled with NBN Fibre. Should those products have their own contract, you will be liable for their associated break fees.

| Contract Break Fees | Tenure       |               |                |                |

## Other Information

### Usage Information

Customers can obtain information on their Cable usage information at <https://toolbox.iinet.net.au>

### Battery Backup and Power Outages

iiNet NBN Fibre has the ability to work in a power outage if a battery backup is installed with your NBN Fibre service. In order for your service to work in a power outage please be aware;

- You must have an active battery backup unit installed. (This is optional and you can elect to get this installed at no extra cost when you apply for NBN Fibre with iiNet)
- Access to the internet will only be available with a battery powered device (like a laptop) by connecting directly to the data port on the NBN Connection Box.
- During a power outage, the battery will provide power for a limited period of time, a fully charged battery will last between 3 and 11 hours. If the battery is not fully charged it may last for less than 3 hours.
