

Critical Information Summary:

NBN

Information About The Service

The NBN service is a broadband internet service which uses the NBN Fibre (FTTP, FTTB or FTTN) Network to deliver internet connectivity to the Network Boundary Point at your premises.

With every NBN plan we include our Netphone (Voice over IP) phone service at no additional cost, offering great call rates and call inclusions depending on your plan of choice. The Critical Information Summary for Netphone can be found at:

www.iinet.net.au/about/legal/cis/cis-voip.pdf

Required Services & Availability

The NBN service is only available within an NBN (FTTP, FTTB or FTTN) ready service area. NBN availability can be checked using our coverage checker at: www.iinet.net.au/internet/broadband/nbn/coverage/

You will require an NBN ready modem, with support for all types of NBN services. Your modem will need to be WiFi or VoIP enabled if you want to connect wireless devices or make use of your included Netphone service.

Minimum Term

NBN plans are available on either a no lock-in contract, or on a 24 month contract. A 24 month contract gives access to an included WiFi modem, as well as \$0 activation (\$79.95 on a no lock-in contract).

Included Features

There are a range of value-added features included with NBN plans, with further detail on the website.

- Basic, Boost and MAX indicate the underlying NBN wholesale connection speed. Basic means speeds of up to 12Mbps download/1Mbps upload; Boost means speeds of up to 25Mbps download/5Mbps upload; MAX means speeds of up to 100Mbps download/40Mbps upload.
- Full list of Netphone call rates is available at www.iinet.net.au/phone/netphone-voip/

Due to a number of factors, speeds may vary and may be slower than the maximum NBN wholesale connection speeds. Learn more about NBN speeds at: <https://iihelp.iinet.net.au/support/node/17104/>

Setup Fee

The below activation fee is applicable when signing up to an NBN plan.

Service	Details	Charge (no lock-in contract)	Charge (24 month contract)
NBN (FTTP, FTTB and FTTN)	Activation Fee	\$79.95	\$0

Any cabling that is required in your premises beyond the Network Boundary point is your responsibility. Standard installations are completed without charge to you. Non-standard, additional or subsequent installations may require you to pay additional charges.

Excess usage

Both uploads and downloads count towards your monthly included data. There are no automatic excess usage charges on NBN – instead, traffic beyond the included data will be slowed (shaped) to 256/256kbps for NBN Basic 250. Limitless plans are not shaped. You may purchase additional data if required: for more information, see iihelp.iinet.net.au/support/data_packs_FAQ

Cancellation Fees

- Applies to 24 month contract term only - the maximum applicable break fee is \$300 within the first 6 months. The below NBN break fees apply thereafter. These fees cover the costs reasonably incurred by iiNet when the contract commenced.
- Cancelling your NBN service will also cancel any other iiNet products you've purchased that are only available when bundled with NBN. Should those products have their own contract, you are liable for their associated break fees.

Contract Break Fees	Tenure			
	0 – 6 months	7 – 12 months	13 – 18 months	19 – 24 months
24 month contract	\$300	\$225	\$150	\$100

NBN Access Technologies

Our NBN service can be delivered over the NBN Network to your premises via Fibre to the Premises (FTTP) as Ethernet, Fibre to the Basement (FTTB) as VDSL2 or Fibre to the Node (FTTN) as VDSL2.

More information on NBN access technologies is available at: www.iinet.net.au/internet/broadband/nbn/about/

Battery Backup and Power Outages

NBN FTTP services have the ability to operate during a power outage if a **battery backup unit (BBU)** is installed. A BBU is available only on NBN FTTP. In order for your service to work in a power outage please be aware that;

- You must have an active BBU installed. (This is optional and you can elect to get this installed at no extra cost when you apply for an NBN FTTP service with iiNet)
- Access to the internet will only be available with a battery powered device (like a laptop) by connecting directly to the data port (UNI-D) on the NBN Connection Box (NTD).
- During a power outage, the battery will provide power for a limited period of time, a fully charged battery will last between 3 and 11 hours. If the battery is not fully charged it may last for less than 3 hours.
