

Critical Information Summary: NBN Wireless

Information About The Service

The NBN Wireless service is a broadband internet service which uses the NBN Fixed Wireless Network to deliver internet connectivity to the Network Boundary Point at your premises.

With every NBN Wireless plan we offer our NBN Phone service at no additional cost, with great call rates and call inclusions depending on your plan of choice. See the [NBN Phone Critical Information Summary](#) for more details.

Requirements & Availability

The NBN Wireless service is only available within an NBN Fixed Wireless service area. NBN Wireless availability can be checked using our [coverage checker](#).

You will require an NBN ready router. Your router will need to be WiFi or VoIP enabled if you want to connect wireless devices or make use of your included NBN Phone service. Some of our NBN Phone services will not work on a third party modem and will require you to purchase a Westnet modem (which is WiFi and VoIP enabled). In these instances, the NBN Phone service will not be available if you choose to use a third party modem. You will also need a standard phone handset (approved for use in Australia) to use your included NBN Phone service.

Minimum Term

NBN Wireless plans are available on either a no lock-in contract, or on a 24 month contract. A 24 month contract offers an included WiFi modem, as well as \$0 activation (\$79.95 on a no lock-in contract).

Included Features

There are a range of value-added features offered with NBN Wireless plans, with further details [here](#).

- **NBN Speeds:** All NBN Wireless plans have a Basic Typical Evening Speed, measured between 7pm and 11pm. NBN12 & NBN25 indicate the underlying speed tier that your NBN plan is on and represents the maximum possible speed that is available outside the busy period of 7pm-11pm. Actual speeds may vary due to many factors including type/source of content being downloaded, hardware and software configuration, the number of users simultaneously using the network and performance of interconnecting infrastructure not operated by Westnet. Devices connected by WiFi may experience slower speeds than those connected by Ethernet cable. [Learn more about NBN speeds](#)

Setup Fee

Service	Details	Charge (No lock-in contract)	Charge (24 month contract)
NBN Wireless	Setup Fee	\$79.95	\$0

Any cabling that is required in your premises beyond the Network Boundary Point is your responsibility. Standard installations are completed without charge to you. Non-standard, additional or subsequent installations may require you to pay additional charges.

Excess usage

Both uploads and downloads count towards your monthly included data. There are no excess usage charges on NBN Wireless – instead, traffic beyond the included data will be slowed (shaped) to 256/256kbps for NBN12 500. Unlimited plans are not shaped. You may purchase additional data if required: for more information, see [here](#).

Cancellation Fees

- Applies to 24 month contract term only - the minimum applicable break fee is \$300 within the first 6 months. The below NBN Wireless break fees apply thereafter. These fees cover the costs reasonably incurred by Westnet when the contract commenced.
- Cancelling your NBN Wireless service will also cancel any other Westnet products you've purchased that are only available when bundled with NBN Wireless. Should those products have their own contract, you are liable for their associated break fees.

Contract Break Fees	Tenure			
	0 – 6 months	7 – 12 months	13 – 18 months	19 – 24 months
24 month contract	\$300	\$225	\$150	\$100
