nbn® Phone Call Inclusions	Pay as you go						
Total Min. Charge (no lock-in) including supplied modem	\$284.99	\$286.99	\$294.99	\$304.99	\$304.99	\$309.99	\$319.99
Total Min. Charge (no lock-in) if you return the modem (see below)	\$84.99	\$86.99	\$94.99	\$104.99	\$104.99	\$109.99	\$119.99

\*Our NBN100 plan is configured on the NBN 100/20 wholesale tier which provides upload speeds between 1Mbps and 20Mbps. By invitation only, some existing customers may be eligible to configure their NBN100 plan on the NBN100/40 wholesale tier which provides off peak upload speeds between 1Mbps and 40Mbps. The applicable monthly charge for this is \$99.99 (this is only offered on a Month-to-Month basis), and the total minimum charge (no lock-in) is \$99.99.

Total Minimum Charge on a no lock-in contract if you purchase the iiNet Wi-Fi Max Modem (the 'Modem') is the \$200 modem fee, \$10 modem delivery fee plus one month of plan fees. If you stay connected for 24 months (Device Period), the Modem costs \$0. If you leave prior to 24 months, you will be charged a modem fee of \$200. Alternatively, if you return the Modem in Good Working Order within 21 days, we will waive the modem fee.

Total Minimum Charge on a no lock-in contract if you BYO modem is one month of plan rental.

## Information About The Service

### Service Description

The nbn® service is a broadband internet service which uses the nbn® Fibre (FTTP, FTTB, FTTN, FTTC or HFC) technology to deliver internet connectivity to the Network Boundary Point at your premises. There are a range of value-added features included with nbn® plans, with further details [here](#).

- nbn® Phone offered
- Unlimited data
- No excess quota usage charges
- 24/7 customer service

### Minimum Term

nbn® plans are supplied on a no lock-in contract.

### Early Cancellation and Hardware Fees

There are no cancellation fees for no lock-in contracts. However, you may be required to pay for the Modem if you leave prior to 24 months (refer to Total Minimum Charge under the Plans table above). The modem fee is \$200. Alternatively, you may choose to return your Modem in Good Working Order within 21 days to avoid paying the modem fee. 'Good Working Order' means the returned Modem is near new with only minor signs of wear and tear, and includes all original equipment.

Cancelling the nbn® service will also cancel any other iiNet products that are only available with nbn®. Should those products have their own contract, you are liable for their associated break fees.

If your order is withdrawn after receiving the Modem we supplied to you, then you will need to return the Modem to us in Good Working Order within 21 days of cancellation/withdrawal. If you do not return the Modem, then you will be charged a Modem non-return fee of \$200.

### Availability

This service is available in areas serviced by the nbn® (FTTP, FTTB, FTTN, FTTC or HFC). Use our [coverage checker](#) to check nbn® availability at your address.

NBN500, Superfast and Ultrafast plans are only available in nbn® FTTP & nbn® HFC areas. NBN100 is only available in nbn® FTTN/B/C areas.

Non-standard installations may incur additional fees. An nbn® \$300 New Development Charge applies if your premises is identified by nbn® as being within the site boundary of a new development.

### Equipment Required

An nbn® compatible modem that is Wi-Fi enabled to connect with wireless devices. You may purchase the iiNet Wi-Fi Max Modem (the 'Modem') or bring your own compatible modem. For more information on compatible modems, see [here](#). If you purchase the Modem, you will be supplied with a new or remanufactured compatible modem. If you bring your own modem, NBN500, Superfast and Ultrafast plans require a compatible high-speed modem, see [here](#). If you purchase the Modem, title to the Modem passes to you when we receive payment in full, or upon expiry of the Device Period. If you choose to return the Modem in return for a waiver of the modem fee, title to the Modem remains with iiNet.

To be provided a working nbn® Phone service, you need a standard phone handset (approved for use in Australia) and you must purchase the Modem. If you are an existing customer, you may be able to use your existing modem – we will advise you if your modem is compatible during selection of your nbn® plan.

Any cabling that is required in your premises beyond the Network Boundary Point is your responsibility. Standard installations are completed without charge to you. Non-standard, additional or subsequent installations may require you to pay additional charges.

Information is current as of April 2026

## nbn® Speeds

Typical Evening Download Speeds are subject to change and are measured 7pm-11pm. Typical Evening Upload Speeds are estimated by reference to the maximum upload speed. Speeds are not guaranteed and may vary.

The nbn® speed tier is the maximum possible download speed that is available outside the busy period of 7pm-11pm.

For FTTN/B/C customers, we will inform you of your maximum attainable line speed once it's available from nbn® after activation. If you are on a higher speed nbn® plan that your line can't support, we'll provide you with options, including to downgrade or cancel your service for no extra charge and with a refund if cancelling or a credit to your account if downgrading.

In some circumstances, we may automatically change your plan to a lower speed tier that's more suitable to you, and provide you with a proportionate credit to your account as well (however, we will let you know about this in advance).

Actual speeds may vary due to many factors including type/source of content being downloaded, hardware and software configuration, the number of users simultaneously using the network and performance of interconnecting infrastructure not operated by iiNet. Devices connected by Wi-Fi may experience slower speeds than those connected by Ethernet cable. More info [here](#).

## nbn® Phone & Call Packs

We offer our nbn® phone service on a Pay As You Go basis at no additional cost to customers that purchase the Modem with their plan and existing customers who reuse their compatible iiNet supplied modem.

See full list of nbn® Phone call rates [here](#).

Critical Information Summary for nbn® Phone [here](#).

Great value call packs (as below) are available at an additional monthly fee. [Acceptable Use Policy](#) applies.

Call Packs	Call Pack Inclusions	Monthly Charge
<b>Basic</b>	<ul style="list-style-type: none"><li>Unlimited local calls (excluding 13/1300 numbers and calls to Directory Assistance (1223)), unlimited standard national calls and unlimited national calls to mobiles</li></ul>	\$5
<b>Value</b>	<ul style="list-style-type: none"><li>Unlimited local calls (excluding 13/1300 numbers and calls to Directory Assistance (1223)), unlimited standard national calls and unlimited national calls to mobiles</li><li>100 minutes each month to call any landline or mobile in any destination listed in the Value Call Pack in our <a href="#">International Call rates</a> page (excluding satellite phones)</li></ul>	\$10
<b>Premium</b>	<ul style="list-style-type: none"><li>Unlimited local calls (excluding 13/1300 numbers and calls to Directory Assistance (1223)), unlimited standard national calls and unlimited national calls to mobiles</li><li>Unlimited international calls to any landline or mobile to the select <a href="#">23 destinations</a> (excluding satellite phones)</li></ul>	\$15

## nbn® Access Technologies

Our nbn® service can be delivered over the nbn® Network to your premises via Fibre to the Premises (FTTP) as Ethernet, Hybrid Fibre- Coaxial (HFC) as Ethernet, Fibre to the Curb (FTTC) as Ethernet, Fibre to the Basement (FTTB) as VDSL2 or Fibre to the Node (FTTN) as VDSL2. More information on nbn® access technologies is available [here](#).

## Mobile Backup Feature

This optional feature is only available with purchase of the Modem. It allows you to configure the Modem to connect to a mobile hotspot network from your mobile phone and automatically use your mobile data during an nbn® service outage. The feature requires use of your mobile data at your own cost. Check the data allowance and terms of use of your mobile service to ensure it is compatible with use of this feature. Speeds, availability and performance of the Mobile Backup feature are dependent on the capabilities and limitations of your mobile phone, mobile network coverage and plan speeds offered by your mobile data plan provider.

## Battery Backup and Power Outages

This service does not include a battery backup. This means you will not be able to access any internet and telephony services provided by nbn® during a power outage. This includes making calls to emergency service numbers like 000. Please ensure you have alternate ways of making calls, such as a mobile phone.
