

Critical Information Summary:

Naked DSL

Information About The Service

iiNet Naked DSL is a residential service that allows you to experience the benefits of ADSL2+ speeds on the iiNetwork, without the cost of line rental.

All Naked DSL plans include Netphone (VoIP) at no additional cost, offering great call rates and call inclusions depending on your plan of choice. The Critical Information Summary for Netphone can be found at iinet.net.au/about/legal/cis/cis-voip.pdf

Requirements & Availability

You will require an ADSL broadband modem to connect your service. To make use of your Netphone service, you'll require a VoIP-enabled modem and handset. If you don't already have one, you can purchase a modem from iiNet for \$59.95 (\$10 delivery fee applies).

Service availability can be checked using our online coverage calculator:

www.iinet.net.au/internet/broadband/naked-dsl/

To ensure you're always connected to the best product available, we may need to change your service, for example, when an upgraded service (like our NBN Fibre service) becomes available. If this happens, we'll inform you ahead of any changes.

Minimum Term

Naked DSL plans are available on a no lock-in contract.
