

Critical Information Summary:

Business On-Net ADSL2+ Broadband

Information About The Service

Westnet ADSL2+ Business Broadband is a service that delivers high-speed broadband nationwide via our own broadband network.

Required Services & Availability

ADSL2+ requires a basic telephone service in order to function. You can use a suitable telephone service from another provider and pay the standard pricing, or you can use a Westnet Phone service (from \$30 per month) and receive monthly bundling benefits on your broadband.

You will require an ADSL modem to connect your service. If you don't already have one, Westnet can sell or rent you a suitable device at additional cost.

ADSL2+ availability can be checked using our online coverage checker at www.westnet.com.au/internet

Minimum Term

ADSL2+ Broadband plans are available on either no fixed term, or on a 24 month agreement which gives access to discounted hardware.
