## Extreme Weather events impact service in Greater Melbourne, Central, West and South Gippsland and East Gippsland Districts

iiNet Group reference ID: 2045402

The iiNet Group (iiNet Ltd, Westnet Pty Ltd, Netspace Pty Ltd, Internode Pty Ltd and the AAPT Consumer Division) is currently working to manage the impact to its network that has occurred as a result of extreme weather events that occurred in the Greater Melbourne, Central, West and South Gippsland and East Gippsland region of Victoria on or about Monday 4 June 2012 through to Tuesday 5 June 2012.

Damaging winds, heavy rain and flash flooding have caused notable damage to the network, rendering some services faulty, as referred to in Telstra Wholesales Mass Service Disruption Notification which can be found at <http://telstra.com.au/abouttelstra/commitments/mass-service-disruption/>. A copy of this notice will also be published in the Melbourne Herald Sun for Tuesday 12th June.

The iiNet Group is working closely with suppliers and wholesalers to assess and repair the damage to affected services in a timely manner. Customers in these regions may experience service disruptions and delays to normal connection times and fault restoration.

Because these events are outside the iiNet Group's control, iiNet is claiming an exemption under Section 21 of the Telecommunications (Customer Service Guarantee) Standard 2011 from the normal performance standards. The exemption shall apply from **5th June 2012 to 15th June 2012** inclusive. This date is indicative only; customers should anticipate that some further delays may occur.
