Extreme Weather events impact service in Sydney Metropolitan, Greater Sydney, Hunter, Central Tablelands, Illawarra, and South Coast

iiNet Group reference ID: 2550589

As previously notified on **9 May 2013**, the iiNet Group (iiNet Ltd, Westnet Pty Ltd, Internode Pty Ltd, AAPT Consumer Division and TransACT Capital Communications Pty Ltd) is currently working to manage the impact to its network that has occurred as a result of extreme weather events in the Sydney Metropolitan, Greater Sydney, Hunter, Central Tablelands, Illawarra, and South Coast region of New South Wales on or about Friday 19 April 2013 through to Saturday 20 April 2013.

Heavy rains and flooding have caused notable damage to the network, rendering some services faulty, as referred to in Telstra Wholesales Mass Service Disruption Notification which can be found at <http://telstra.com.au/abouttelstra/commitments/mass-service-disruption/>. A copy of this notice will also be published in **Daily Telegraph on the 12 June 2013**.

The iiNet Group is working closely with suppliers and wholesalers to assess and repair the damage to affected services in a timely manner. Customers in these regions may experience service disruptions and delays to normal connection times and fault restoration. The impact in the affected region has been greater than initially estimated, and as a consequence the expected date for resumption of normal service operations has been extended to **21 June 2013**.

As these circumstances are outside the iiNet Group's control, iiNet is claiming an exemption under Section 21 of the Telecommunications (Customer Service Guarantee) Standard 2011 from the normal performance standards. The exemption shall apply from **3 May 2013 to 21 June 2013** inclusive. This date is indicative only; customers should anticipate that some further delays may occur.

Services in the affected location with a phone number in the following ranges may have been affected:
