Extreme Heat impacts service in Melbourne and Greater Melbourne iiNet Group reference ID: 3022233

The iiNet Group (iiNet Ltd, Westnet Pty Ltd, Internode Pty Ltd, AAPT Consumer Division, TransACT Capital Communications Pty Ltd and Jiva Pty Ltd) is currently working to manage the impact to its network that occurred as a result of a heat wave in the Melbourne and Greater Melbourne areas of Victoria on or about Tuesday 14 January 2014 through to Friday 17 January 2014.

Due to occupational health and safety concerns for our wholesaler's technicians working outdoors and in confined spaces, our wholesaler took measures to limit its service delivery during this period. As a result, there has been some disruption to service and delays to normal installation and repair activities. Further information is set out in Telstra's Mass Service Disruption Notice which can be found at <http://telstra.com.au/abouttelstra/commitments/mass-service-disruption/>. A copy of this iiNet Group notice will also be published in Melbourne's **Herald Sun** on **21 January 2014**.

The iiNet Group is working closely with suppliers and wholesalers to assess and repair affected services in a timely manner. Customers in these regions may experience service disruptions and delays to normal connection times and fault restoration.

As these circumstances are outside the iiNet Group's control, iiNet is claiming an exemption under Section 21 of the Telecommunications (Customer Service Guarantee) Standard 2011 from the normal performance standards. The exemption shall apply from **15 January 2014 to 22 January 2014** inclusive. This date is indicative only; customers should anticipate that some further delays may occur.
