iiNet Group reference ID: 3089293

The iiNet Group (iiNet Ltd, Westnet Pty Ltd, Internode Pty Ltd, AAPT Consumer Division, TransACT Capital Communications Pty Ltd and Jiva Pty Ltd) is currently working to manage the impact to its network that has occurred as a result of a series of extreme weather events in the Hunter, Central West Slopes and Plains, South West Slopes, Illawarra and South Coast regions of New South Wales and Australian Capital Territory on or about Wednesday 19 February 2014.

Damaging wind and heavy rainfall have caused notable damage to the network, rendering some services faulty, as referred to in Telstra Wholesales Mass Service Disruption Notification which can be found at <http://telstra.com.au/abouttelstra/commitments/mass-service-disruption/>. A copy of this notice will also be published in the **Daily Telegraph on 25 February 2014**.

The iiNet Group is working closely with suppliers and wholesalers to assess and repair the damage to affected services in a timely manner. Customers in these regions may experience service disruptions and delays to normal connection times and fault restoration.

As these circumstances are outside the iiNet Group's control, iiNet is claiming an exemption under Section 21 of the Telecommunications (Customer Service Guarantee) Standard 2011 from the normal performance standards. The exemption shall apply from **19 February 2014 to 14 March 2014** inclusive. This date is indicative only; customers should anticipate that some further delays may occur.
