iiNet Group reference ID: 3579187

The iiNet Group (iiNet Ltd, Westnet Pty Ltd, AAPT Consumer Division, Internode Pty Ltd, TransACT Capital Communications Pty Ltd, Jiva Pty Ltd and Adam Internet Pty Ltd) is currently working to manage the impact due to the Gold Coast 600 motoring event, in and around the Gold Coast area of Queensland on Monday 20 October 2014 through to Monday 27 October 2014.

Access to the immediate area of the Gold Coast 600 motoring event and surrounding suburbs is expected to be restricted due to the many road closures surrounding the race track area, and the resulting congestion on other arterial roads providing access to the area. This is expected to severely restrict normal access and activity in those areas, as referred to in Telstra Wholesales Mass Service Disruption Notification which can be found at <http://telstra.com.au/abouttelstra/commitments/mass-service-disruption/>. A copy of this notice will also be published in the **Gold Coast Bulletin** on **22 October 2014**.

The iiNet Group is working closely with suppliers and wholesalers to assess and repair the damage to affected services in a timely manner. Customers in these areas may experience service disruptions and delays to normal connection times and fault restoration.

As these circumstances are outside the iiNet Group's control, iiNet is claiming an exemption under Section 21 of the Telecommunications (Customer Service Guarantee) Standard 2011 from the normal performance standards. The exemption shall apply from **20 October 2014 to 2 November 2014** inclusive. This date is indicative only; customers should anticipate that some further delays may occur.

Services in the affected location with a phone number in the following ranges may have been affected:
