Ongoing Extreme Weather events impact service in North Tropical Coast and Tablelands region of Queensland

iiNet Group reference ID: 3786913

As previously notified on **27 January 2015** and **5 March 2015**, the iiNet Group (iiNet Ltd, Westnet Pty Ltd, AAPT Consumer Division, Internode Pty Ltd, TransACT Capital Communications Pty Ltd, Jiva Pty Ltd and Adam Internet Pty Ltd) is currently working to manage the impact to its network that has occurred as a result of ongoing extreme weather events in the North Tropical Coast and Tablelands region of Queensland on or about Friday 16 January 2015 continuing to date.

Heavy rainfall has caused notable damage to the network, rendering some services faulty, as referred to in Telstra Wholesales Mass Service Disruption Notification which can be found at <http://telstra.com.au/abouttelstra/commitments/mass-service-disruption/>. A copy of this notice will also be published in the **Brisbane Courier Mail** on **1 April 2015**.

The iiNet Group is working closely with suppliers and wholesalers to assess and repair the damage to affected services in a timely manner. Customers in these regions may experience service disruptions and delays to normal connection times and fault restoration. The impact in the affected region has been greater than initially estimated and as a consequence of the ongoing weather effects, the expected date for resumption of normal service operations has been extended to **19 April 2015**.

As these circumstances are outside the iiNet Group's control, iiNet is claiming an exemption under Section 21 of the Telecommunications (Customer Service Guarantee) Standard 2011 from the normal performance standards. The exemption shall apply from **21 January 2015 to 19 April 2015** inclusive. This date is indicative only; customers should anticipate that some further delays may occur.
