As previously notified on **10 February 2016**, the iiNet Group (iiNet Ltd, Westnet Pty Ltd, Internode Pty Ltd, TransACT Capital Communications Pty Ltd and Adam Internet Pty Ltd) is currently working to manage the impact to its network that has occurred as a result of a series of severe weather events in the Capricornia District and part of the Central Highlands and Coalfields and Central Coast-Whitsundays Districts of Queensland on or about Thursday 4 February 2016 through Friday 5 February 2016.

The weather effects have caused notable damage to the network, rendering some services faulty, as referred to in Telstra Wholesales Mass Service Disruption Notification which can be found at <http://telstra.com.au/abouttelstra/commitments/mass-service-disruption/>. A copy of this notice will also be published in the **Brisbane Courier Mail** on **15 March 2016**.

The iiNet Group is working closely with suppliers and wholesalers to assess and repair the damage to affected services in a timely manner. Customers in these regions may experience service disruptions and delays to normal connection times and fault restoration. As these circumstances are outside the iiNet Group's control, iiNet is claiming an exemption under Section 21 of the Telecommunications (Customer Service Guarantee) Standard 2011 from the normal performance standards. The exemption shall apply from **4 February 2016** to **10 April 2016** inclusive. This date is indicative only; customers should anticipate that some further delays may occur.
