(iiNet Ltd, Westnet Pty Ltd, Internode Pty Ltd,  
TransACT Capital Communications Pty Ltd, Adam Internet Pty Ltd).

## Extreme Heat impacts service in Perth and part of the Lower West District of Western Australia iiNet Group reference ID: 4585425

The iiNet Group (iiNet Ltd, Westnet Pty Ltd, Internode Pty Ltd, TransACT Capital Communications Pty Ltd and Adam Internet Pty Ltd) is currently working to manage the impact to its network that has occurred as a consequence of a period of extremely hot weather in Perth and part of the Lower West District of Western Australia on or about Sunday 7 February 2016 through to Wednesday 10 February 2016.

Telstra technicians working outdoors and in confined spaces during a period of extreme heat may be at risk of serious and potentially fatal heat-related illnesses such as heat stroke. On this basis, our wholesaler has taken measures to limit its service delivery during this period in compliance with the Work Health and Safety Act 2011. As a result, there has been some disruption to service and delays to normal installation and repair activities, as referred to in Telstra Wholesales Mass Service Disruption Notification which can be found at <http://telstra.com.au/abouttelstra/commitments/mass-service-disruption/>.

A copy of this notice will also be published in the **West Australian** on **15 February 2016**.

The iiNet Group is working closely with suppliers and wholesalers to assess the full impact of the extreme weather conditions on its network. Customers in these regions may experience service disruptions and delays to normal connection times and fault restoration.

As these circumstances are outside the iiNet Group's control, iiNet is claiming an exemption under Section 21 of the Telecommunications (Customer Service Guarantee) Standard 2011 from the normal performance standards. The exemption shall apply from **10 February 2016 to 21 February 2016** inclusive. This date is indicative only; customers should anticipate that some further delays may occur.
