Severe Weather events impact service in the Hunter and Central Tablelands Districts and part of the Mid North Coast District of New South Wales

iiNet Group reference ID: 4774565

As previously notified on 14 June 2016 the iiNet Group (iiNet Ltd, Westnet Pty Ltd, Internode Pty Ltd, TransACT Capital Communications Pty Ltd and Adam Internet Pty Ltd) is currently working to manage the impact to its network that has occurred as a result of a series of severe weather events in the Hunter and Central Tablelands Districts and part of the Mid North Coast District of New South Wales on or about Saturday 4 June through to Monday 6 June 2016.

Severe weather events have caused notable damage to the network, rendering some services faulty, as referred to in Telstra Wholesales Mass Service Disruption Notification which can be found at <http://telstra.com.au/abouttelstra/commitments/mass-service-disruption/>. A copy of this notice will also be published in the **Sydney Daily Telegraph** on **13 July 2016**.

The iiNet Group is working closely with suppliers and wholesalers to assess and repair the damage to affected services in a timely manner. Customers in these regions may experience service disruptions and delays to normal connection times and fault restoration. The impact in the affected region has been greater than initially estimated and as a consequence of continued weather effects, the expected date for resumption of normal service operations has been extended to **31 July 2016**.

As these circumstances are outside the iiNet Group's control, iiNet is claiming an exemption under Section 21 of the Telecommunications (Customer Service Guarantee) Standard 2011 from the normal performance standards. The exemption shall apply from **6 June 2016** to **31 July 2016** inclusive. This date is indicative only; customers should anticipate that some further delays may occur.

Services in the affected location with a phone number in the following ranges may have been affected:
