iiNet bundles more joy into its Combo

6 July 2012: iiNet has launched a range of new combo deals that jam-pack a range of products and services into great value bundles.

Starting from $99 per month, iiNet Combos include broadband, home phone, BoB rental, and online security plus the choice of either fetchtv or a mobile SIM.

Steve Harley, Chief Product Officer at iiNet, said the combos are a selection of iiNet's most popular products and services packaged together to offer customers great value, flexibility and convenience.

"We've come up with some cool Combo deals, all of which can be tailored by the customer to cater for their specific needs," Mr Harley said.

"An iiNet Combo is a great way to save time and money while selecting an assortment from our innovative products and services."

iiNet Combos are available now for new and existing customers.

About iiNet

iiNet is Australia's second largest DSL Internet Service Provider (ISP) and the leading challenger in the telecommunications market. We employ more than 2600 inquisitive staff across four countries and support over 1.7 million broadband, telephony and Internet Protocol TV (IPTV) services nationwide.

Recent acquisitions of TransACT and Internode have taken our market share to around 16 percent with more than 860,000 broadband customers.

We're a publicly listed company and we maintain our own super-fast broadband network. Our vision is to lead the market with products that harness the potential of the Internet and then differentiate with award-winning customer service.

To achieve this, we employ creative thinkers and true advocates of technology. Our people are a huge part of the iiNet success story, so we've developed a unique and stimulating work culture to ensure they remain engaged and inspired.

A lot has changed since our CEO founded iiNet in a suburban garage back in 1993 and the broadband landscape continues to evolve. What hasn't changed is our passion for the transformative benefits of the Internet and our commitment to helping Australians connect better.
