iiNet partners with Gameservers.com to host Australia's only *Call of Duty: Black Ops 2* PC servers

13 November 2012: iiNet, Australia's leading challenger in the telecommunications industry, can today reveal that gamers around Australia will have access to local, high-speed, lag-free multiplayer servers for *Call of Duty: Black Ops 2* hosted through the company's gaming portal, games.on.net.

games.on.net has partnered with Gameservers.com to deliver rock-solid, lightning fast *Black Ops 2* servers with quota-free access for customers of the iiNet Group from 13 November 2012.

The announcement comes after a successful partnership between games.on.net and Gameservers.com for the previous title *Call of Duty: Black Ops*.

Heidi Angove, iiNet Group's Content Manager, said the continued partnership would help provide the best possible Australian multiplayer experience for the new title.

"games.on.net and gameservers.com are hoping to grow our relationship even further in the future so that we can continue to provide a better gaming experience for all Australians," Ms Angove said.

For more information on games.on.net, visit games.on.net or www.iinet.net.au.

About iiNet

iiNet is Australia's second largest DSL Internet Service Provider (ISP) and the leading challenger in the telecommunications market. We employ more than 2,000 inquisitive staff across four countries and support over 1.7 million broadband, telephony and Internet Protocol TV (IPTV) services nationwide.

We're a publicly listed company and we maintain our own super-fast broadband network. Our vision is to lead the market with products that harness the potential of the Internet and then differentiate with award-winning customer service.

To achieve this, we employ creative thinkers and true advocates of technology. Our people are a huge part of the iiNet success story, so we've developed a unique and stimulating work culture to ensure they remain engaged and inspired.

A lot has changed since our CEO founded iiNet in a suburban garage back in 1993 and the broadband landscape continues to evolve. What hasn't changed is our passion for the transformative benefits of the Internet and our commitment to helping Australians connect better.
