

Media Release

iiNet's Fast 50 finish

16 November 2012: iiNet, the leading challenger in Australia's communication industry, has made the Deloitte Technology Fast 50 list for the seventh year, with a growth of 75.4%.

iiNet also picked up a Leadership Award which honours technology companies with revenues in excess of \$50 million this year.

iiNet's Chief Executive Officer, Michael Malone, said the nod reflects iiNet's recent best ever financial results.

"We've grown substantially in the last year, both organically and through acquisitions, which has allowed us to expand what we offer to customers. Most importantly, we've continued our strong focus on delivering awesome customer service backed up by great products," he said.

The Deloitte Technology Fast 50 program is in its twelfth year and recognises Australian technology companies, public or private, who have achieved the fastest rates of annual revenue growth (based on percentage revenue growth over the last three years).

The Deloitte Technology Fast 50: 2012 Winners' Report can be found on the Deloitte [website](#).

About iiNet

iiNet is Australia's second largest DSL Internet Service Provider (ISP) and the leading challenger in the telecommunications market. We employ more than 2,000 inquisitive staff across four countries and support over 1.7 million broadband, telephony and Internet Protocol TV (IPTV) services nationwide.

We're a publicly listed company and we maintain our own super-fast broadband network. Our vision is to lead the market with products that harness the potential of the Internet and then differentiate with award-winning customer service.

Media Release

To achieve this, we employ creative thinkers and true advocates of technology. Our people are a huge part of the iiNet success story, so we've developed a unique and stimulating work culture to ensure they remain engaged and inspired.

A lot has changed since our CEO founded iiNet in a suburban garage back in 1993 and the broadband landscape continues to evolve. What hasn't changed is our passion for the transformative benefits of the Internet and our commitment to helping Australians connect better.
